Chapter 1 by Fanwizard

The sun shone bright and the sky was clear and a deep blue. Michael, Ashley's father squeezed 9 year old Ashley's hand while cradling baby Aaron, only one year old in his other arm.

Ashley was going to be a big sister to a little girl! Sure, she was an older sister of Aaron, but Aaron mostly stayed around Mom so Ashley didn't take care of Aaron much.

She was so excited, but worried for the little baby. Would the baby survive and live a long happy life? Also with Mom? Or will Mom die in the process, and the baby live a short time before the baby died also?

A doctor came and didn't say anything, but a small smile was on the doctor's face. But Ashley already knew, and ran into the room.

Her mom sat on a bed, holding a blue bundle of joy and rocking the baby gently. Ashley immediately pulled back the blanket and revealed a beautiful and adorable baby that looked exactly like her mom, Lydia, except more beautiful and more happy. Her eyes were particularly beautiful, phthalo blue.

One look did it, and Michael ushered Ashley out of the room in order to let her parents to discuss what the baby's name would be. Stubborn like the way she was, Ashley stood outside the door and listened to the conversation going on.

'Elizabeth is a good name or Margaret,' Lydia told Michael wearily as she rocked the new baby.

'After my mom'

Eventually, Ashley droned out from her parents' conversation and went exploring. She tried to memorize every room in the hospital, but slowly gave up.

There was that really nice nurse that played and entertained Ashley. What was her name again? Molly, Margaret, Michelle, something like that. Maybe Molly wanted to see Ashley.

So Ashley skipped around looking for Molly. Molly was nowhere in sight. Oh, well. Molly could wait a little bit.

When Ashley came back to her Mom's room, the door was open and Lydia had picked a name for the baby girl. Carlotta Margaret Olivia Brooks was the perfect name, and Ashley liked that name. She would call Carlotta, Carrie, Carla, or maybe even C for short.

While Ashley was playing with Carlotta, a figure appeared at the doorway. This person wore a very dark cape on top of a red dress, and this figure had thick curly black hair, but it was hidden by the hood of the cape. The woman had eyes that changed colors, but mostly stayed an amber, and had a serene smile.

The woman smiled, and the noises of the hospital stopped immediately. Mystery, Ashley decided to call her. Mystery pulled down her hood, revealing her beautiful face, and took the baby from Lydia's hand gently.

As Mystery held Carlotta in her arms, she pulled out a pen that Carlotta held. Gurgling and laughing, Carlotta seemed to be in no danger, so Mystery started talking in a strange and odd voice.

"Carlotta, 3rd born in the Brooks family, you are going to grow up to make a difference as a beautiful young girl. 9 years from now, a fate will take you off guard, and you may not live. Choose your path wisely young Carlotta, and this is my warning of the fate you will take," Mystery murmured gently.

Mystery started to disappear, and her appearance changed at the last few seconds. Quickly, Ashley caught a glimpse, a young girl with a warm smile, ocean blue eyes, and honey colored hair.
